12.1 Entry fees

There are no specific entry fees for participating in the championship.

12.2 In-game content

In order to participate, you need to own at least one car and one livery, and the respective track of the leaderboard competition.

Cars and tracks are available as a bundle, or individually here: <http://game.raceroom.com/store/>

If you qualify for a multiplayer race, and the race direction assigns a livery to you that you do not own yet, you have to purchase it.

12.3 Qualifying for the online multiplayer events

Qualifying sessions will be accessible via the following link:

<http://game.raceroom.com/championships/20>

Each race has its own qualifying competition. You need to qualify for each event individually.

At the deadline for qualifying for the Multiplayer race, the **96 best online drivers will be invited by e-mail** to participate in the live multiplayer races.

Drivers must confirm their participation in writing by **no later than the Thursday, 10 noon (GMT)** before the multiplayer race. If the commitment is not given by the deadline, the qualifier may be replaced by the next participant from the respective ranking list. It shall be up to the organiser to decide whether a replacement is made.

If you cannot participate, and you know so during the confirmation period, please tell us that you cannot attend and your spot will be allocated to another driver. There are no negative consequences to this.

Once the grid is final, drivers will receive the **gridmail via e-mail** before the race. There they can see on which server they drive. The drivers will be split into 4 servers, of 24 drivers each. The fastest 24 drivers will drive on server 1, drivers 25-48 in server 2, drivers 49-72 on server 3 and drivers 73-96 on server 4.

Once you have confirmed your presence, you are expected to show up for the event.

If you miss one event for which you have confirmed your presence, you will receive a warning. If you miss a second event, you will be excluded from any further events from the championship. Late absence reports are not possible and will be ignored.

12.4 Cars and Liveries

On the leaderboard, drivers can use whichever car they want, and they can use a different car on each leaderboard.

In the multiplayer races, drivers have to use the same car for the whole season. In their first confirmation mail for the first multiplayer race that they qualify for, they specify which car they want to use.

Liveries will be assigned by the race direction.

12.5 Team and Community

You can specify a team or a community that you will be representing during the Championship in your RaceRoom driver profile. There are no point tables for teams or communities; however the names will be used for promotional materials and the broadcast commentary. It is not necessary to specify a team or a community. Any offending or discriminatory names will be rejected by the Staff.

§15 On-Track Etiquette

15.1 General sportsmanship

This is a simracing competition, and drivers must respect the sport, the competition and their competitors. Drivers must always aim to achieve the best result for themselves in each race, while driving within the rules and obeying to fairplay.

15.2 Important basics

First of all, make sure that you are always in control of your car. This is the most important rule. Inability to control your car is not an excuse if you cause an accident.

Remember at all times that you are driving with other humans. So stay humble, and race with respect.

Also remember, you are in an official competition, competing with your real name. You do not want to make a fool out of yourself.

15.3 Start phase

In the start phase, you have to be extra careful. It is very easy to cause an accident affecting many cars. Start phase accidents will be penalized more harshly.

15.4 Overtaking and defending

Overtaking is one of the most crucial parts of racing. All drivers involved in an overtaking move must show respect and drive with care. Do not force a chasing car off the track by leaving too little room. Do not change your line in the braking zone. If the attacking car is alongside going into a corner, drivers must adjust their line to avoid contact. Blocking a car that has an overlap is not allowed. An overlap is defined that the front of the attacker's car is at least next to the rear tyres of the defender's car. When you exit a corner and the car on the outside has an overlap, you have to leave enough space for the car so that it does not have to leave the track. Excessive divebombing is also not allowed.

15.5 Track Boundaries

The track boundaries are following the ingame penalties. In general, they are as follows: 2 wheels always on track, kerbs count as track. Track-specific exceptions will be explained on the forum. When you exceed the track boundaries, you will see a black and white flag on your screen and you are expected to give back the time gained.

Exceeding the track boundaries is not allowed and will be automatically penalized with a slowdown penalty. You will see a time on your display. This time signals how much you actually have to slow down compared to the racing speed. Therefore, simply using a braking zone to solve the penalty will not work. If you ignore the slowdown penalty, the time will raise and eventually you will automatically be slowed down. During a slowdown penalty, your car is set to non-collidable. You still have to move off the racing line. Keeping a car which has received a slowdown penalty on the racing line is a penalizable offense.

15.6 Race Line

In terms of race line participants can protect their position by changing line once. Excessive weaving and blocking is not allowed. If you re-enter the track, you have to be extremely careful and should not defend against the cars on track that are approaching with higher speed.

15.7 Qualifying

In qualifying, it is your own responsibility to find free space on the track when starting a hot lap. A car on a hot lap does not have to yield for a faster car approaching from behind. If you are on an in- or out-lap, however, you have to let faster cars pass you without blocking them. If you are on a fast lap approaching a slow car, flashing your lights is a way of notifying them that you're on a fast lap. You are allowed to press escape during qualifying to return to the pits.

15.8 Lapping

When being lapped, a participant needs to have a predictable trajectory and keep a regular trajectory and speed. Excessive maneuvers such as braking earlier/harder or changing lines to try and facilitate the lapping usually end up in misunderstandings. Participants need to be aware of their surroundings and yield to a car lapping them by simply not fighting for position. Blue flags will be signalled in game. Ignoring blue flags will lead to an automatic penalty by the software.

15.9 Retirement

You are allowed to press escape during the race to return to the pits. It will end your race.

15.10 Connection

It is your responsibility to make sure that you have a stable internet connection. Gaining an advantage due to a bad connection is not allowed. Incidents caused by lag will be deemed to be the fault of the lagging driver. Drivers with a repeatedly bad connection can be excluded from the competition.

15.11 In-Game Chat

Using the in-game chat during qualifying and race is not allowed.

§16 Flag signals and their meaning

16.1 Yellow flag

A yellow flag indicates an accident. Please be extra careful when you see a yellow flag on your screen.

16.2 Blue flag

A blue flag indicates a faster car approaching from behind, and is typically shown on your out lap or when being lapped. Let the driver pass safely to avoid a penalty. Ignoring blue flags will result in a penalty.

16.3 Black and white diagonal flag

A black and white diagonal flag signals when you go off the racing surface. You have to slow down to give back any advantage gained by cutting the track.

16.4 Black flag

A black flag indicates a disqualification.

§17 Incidents and Penalties

17.1 Definition of Incidents

"Incident" means any occurrence or series of occurrences involving one or more drivers, or any action by any driver, which is reported to the stewards by other drivers which include (but is not limited to):

- Causing a collision which disadvantages competitors.
- Forcing a driver off the track.
- Illegitimately preventing a legitimate overtaking manoeuvre by another driver.
- Illegitimately impeding another driver during overtaking.
- Dangerous driving.
- Using in-game text chat during qualifying or race sessions
- Lack of respect, foul language or bad attitude towards other drivers, staff, or the spectators
- Violations of track boundaries
- Unsafe track entry

17.2 Reporting Incidents

17.2.1 Report procedure

If you feel like another driver has disadvantaged your race, you can report him to the stewards by sending an E-Mail to competition@raceroom.com. The report has to be written according to the following template:

Your name:

Offending driver:

Event and race:

Lap and corner:

Short description of the incident:

Separate incidents have to be covered in separate reports. You do not have to send in a video of your incident. Videos will be ignored. If you don't know on which lap the incident happened, you can open an overlay in the replay section of RaceRoom. In order to do that, you need to assign a key for "Cycle Replay HUD Elements" (in Secondary Controls) and then press the key once you have loaded up the replay.

The staff will not investigate without a report, unless there were extreme forms of misbehaviour by the drivers.

17.2.2 Rules for reports

You can only report incidents which have affected *your* race. Also, incident reports have to be sent in by *you*, with the e-Mail address that you have registered with on RaceRoom. Reporting incidents for your teammate, or reporting scenes that have no influence on your race, is not allowed and the reports will be ignored.

Make sure that you have Replays enabled in your game. You do not have to send in your replay, unless the stewards explicitly ask you to send it.

17.2.3 Deadline for reports

Incident reports have to be sent in between the Monday after the race, 00:01 GMT and Tuesday, 23:59 GMT. Please note that there is a *cool-down-period* directly after the race. Reports sent in before or after will be ignored.

17.2.4 Appealing penalties

Appealing penalties after the fact is not possible.

17.2.5 Conduct with report and defence statements

Any reports that contain disrespectful or discriminatory comments towards the race direction or other competitors will be ignored, and the offender will be excluded from future events of the Super Racer and/or RaceRoom Competitions.

17.2.6 False reports

If a driver repeatedly reports incidents that have not happened, he will be penalized himself.

17.3 Penalties

17.3.1 Introduction to penalties

In this championship, you can receive points penalties which will reduce your overall points score. In addition, you can receive strikes for unfair driving.

17.3.2 Penalty point catalogue

A regular penalty in server 1 is 10 points + 1 strike.
A regular penalty in server 2 is 3 points + 1 strike.
A regular penalty in server 3 and 4 is 1 point + 1 strike.

In cases where no driver is disadvantaged, but the offending driver still broke the rules, such as (but not limited to) careless driving, contact with no position loss, track limit infringements with no advantage gained or unintentional contact with small time loss, the penalty may be reduced to a warning or the point penalty may be halved. No strike is given.

In cases such as (but not limited to) disadvantaging a large group of drivers due to contact, very careless driving, repeated track limit infringements to gain an advantage, the penalty points maybe doubled and 2 strikes may be given.

In severe cases, such as (but not limited to) extremely careless driving, constant track limit infringements to gain an advantage, the penalty may be multiplied by 5, and 5 strikes may be given.

Extreme cases, such as (but not limited to) cheating or deliberately wrecking another driver will lead to a disqualification and to an instant ban from ALL events of the Esports WTCR Oscaro and 8 strikes. His points score of the championship will be reset to 0 (with no other drivers moving up in previous rounds).

Repeat offenders may have to face a harsher penalty.

This penalty point catalogue is not complete. If you find a new way to break the rules which is not covered here, you will still receive a penalty. Also, the stewards can adjust these penalties according to the circumstances.

17.3.3 License points system

When you receive 5 strikes, you will be banned from participating in the next race. You can qualify on the leaderboard, but you will simply not receive an invitation e-Mail.
When you receive 8 strikes, you will be banned from the remainder of the season.

License points cannot be dropped, removed or taken back.

17.3.4 Announcement of penalties

The penalty points that are deducted from the driver's score Full descriptions of the stewards decisions will be released here: https://forum.sector3studios.com/index.php?forums/esports_wtcr/

§18 Other rules
