17.4 Penalties

17.4.1 Introduction to penalties and special definition

In this competition, you can receive time penalties.

In addition, you can receive strikes for unfair driving.

Foreword

The following rulebook is to be enforced on steward's discretion. We know that every incident is unique and as a result cannot be necessarily categorized. The following is not a complete set of infractions and is open to being amended if the situation calls for an update. Based on our experience the past years, we will be closely looking into "Unsafe rejoins", "Moving under braking" and "Contact to pass".

17.4.2 Definition of Incidents

"Incident" means any occurrence or series of occurrences involving one or more drivers, or any action by any driver, which is reported to the stewards by other drivers which includes (but is not limited to):

- Causing a collision which disadvantages competitors.
- Forcing a driver off the track.
- Illegitimately preventing a legitimate overtaking manoeuvre by another driver.
- Illegitimately impeding another driver during overtaking.
- Dangerous driving.
- Using in-game text chat during qualifying or race sessions.
- Lack of respect, foul language or bad attitude towards other drivers, Staff, or the spectators.
- Violations of track boundaries.
- Unsafe track entry.

Unsafe rejoin

An unsafe rejoin is defined as any return to the racing surface or racing line in an unsafe manner causing contact or further incidents with other drivers.

Dangerous rejoins may be subject to additional strikes

For example, but not limited to "T-boning", "side-swiping" or "blocking the racing line with no momentum". The onus is on the rejoining driver to make a safe re-entry to the racing surface without affecting the oncoming traffic.

Joining or rejoining in or from pit lane exit

The drivers can cross the white line whilst entering the pitlanes. They must make sure that there is no contact made with other drivers or others are affected.

When rejoining the track, they are not allowed to cross the white line. They can touch the white line with one tyre but no tyre should fully move over the line. An early Re-Entry to the racing surface will be penalised, any additional incidents caused by crossing the white line early will be considered a dangerous re-join.

Moving under Braking

Moving under braking is defined as the act of changing direction in a braking zone as a reaction to another driver pulling alongside or as an attempt to block a committed passing maneuver. The defending driver has to offer racing room and not make any reactive changes of direction. However proactive moves are allowed i.e. closing the door before the attacking drivers commits to going for the gap, not after. Braking on a diagonal trajectory is acceptable if contact isn't made or if it is not a reactive move. In some cases, diagonal or curved braking zones are the racing line; these are special cases and will be looked at as such.

Contact boosting

Contact boosting is the act of using collision models to affect the momentum of yourself or other drivers. For example, leaning into another car on a straight in an attempt to either gain momentum or halt the momentum of another driver in order to get a run or cancel their run out. However, these situations are not limited to straights, pushing another driver into the braking zone to force them to overshoot the corner also may be considered as contact boosting.

Contact to pass

Contact to pass is a very broad term that covers many different situations, for example where the attacking driver hits the back/ side of another driver forcing them wide and resulting in a direct undefendable pass.

Forcing off track

Forcing off track means to use your car to move an opponent's car outside of the circuit. This could mean on the outside (i.e. under braking or corner exit), on the inside (i.e. forcing to cut an apex and risk a slowdown), or on a straight.

Deliberate Destabilization

Deliberate Destabilization is the act of making contact with an opponent in order to unsettle their car. This could include into a fast section of corners or into/ during a braking zone.

Deliberate blocking (weaving with intend to block)

Deliberate blocking is the attempt to repeatedly block an attacking car's momentum by changing direction multiple times. The defending car is allowed one defensive direction change and may return to its ideal line if racing room is given or the attacking car has not enough momentum to draw level. However, attempting to break the slipstream is considered legal if done proactively and not as a reactive movement.

Track limits

Track limits are defined as having two wheels on or within the circuit markings (usually, but not limited to, white or yellow lines) kerb/ curb count as track. This does not override the ingame automatic track limits detection system by RaceRoom.

Overtaking outside of tracklimits

Overtaking outside of track limits means to gain a position whilst being outside of tracklimits.

Repeated Contact

Repeated contact is defined as multiple instances of contact, without causing damage or position loss to the opponent, but causing time loss and distraction from focusing on the race.

Serving of slow down penalties

When handed a slowdown penalty by the ingame system the driver receiving the slow down penalty should ensure that they serve the slow down in a safe manner, where other cars are unaffected.

Pit Speed Limit

The Pit Speed Limit is enforced by the game.

17.4.3 Penalty point catalogue

I: Warning

II: Half: 0.5 strikes

III: Normal: 1 strikes

IV: Harsh: 2 strikes

V: Very Harsh: 3 strikes

VI: Disqualify + 6 strikes

In cases where no driver is disadvantaged, but the offending driver still broke the rules, such as (but not limited to) slightly careless driving, contact with no position loss, track limit infringements

with no advantage gained, unintentional contact with small time loss the penalty may be reduced to a warning or a half penalty.

In cases such as (but not limited to) disadvantaging a driver due to contact, careless driving, track limit infringements to gain an advantage is a normal penalty.

In cases such as (but not limited to) disadvantaging a large group of drivers due to contact, very careless driving, repeated track limit infringements to gain an advantage is a harsh penalty.

In severe cases, such as (but not limited to) extremely careless driving, constant track limit infringements to gain an advantage, the penalty will be "very harsh".

Extreme cases, such as (but not limited to) cheating or deliberately wrecking another driver will lead to a disqualification and to an instant ban from ALL events of the ROKiT Racing Star F4 Esports Competition presented by RaceRoom and 8 strikes. His points score of the competition will be reset to 0 (with no other drivers moving up in previous rounds).

Repeat offenders may have to face a harsher penalty.

This penalty point catalogue is not complete. If you find a new way to break the rules which is not covered here, you will still receive a penalty. The stewards can adjust these penalties according to the circumstances, even if not further described in the rulebook.

17.4.4 License points system

3 strikes: the driver will receive a qualifying ban for the next race.

5 strikes: the driver will not be allowed to participate in the next race.

6 strikes: the driver will be excluded from the ROKiT Racing Star F4 Esports Competition.

License points cannot be dropped, removed, or taken back throughout the competition.

17.4.5 Announcement of penalties

Full descriptions of the stewards decisions will be announced in the Official Discord server and publicly released in the forum at <https://forum.sector3studios.com/index.php?threads/rokit-racing-star-f4-esports-competition-uk-2022-incidents-and-penalties.17901/>

Dear Parents, Guardians,

Your child wishes to participate in the 2022 ROKiT Racing Star F4 Competition to have a chance to become an actual racing driver.

This section provides some key information for you as a parent and/or guardian about your child's entry into the competition.

It is designed to keep you well informed but if you have any questions regarding your child's participation in the competition after reading this information, please feel free to contact us at contact@racingstar.com.

What you need to know

- The competition starts on January 1, 2022, and consists of 5 rounds of online sim racing utilizing RaceRoom's sim racing platform.
- The competition is 100% free, as is RaceRoom's sim platform, the competition car and tracks. There are no entry costs.
- For each round, participants have circa 2 weeks to qualify for the live races. The qualifying period has been determined to give your child enough time to set a qualifying lap and not get in the way of his or her schooling or daily activities.
- The 20 boys and girls with the fastest qualifying lap times will receive an email invitation to race for competition points in separate boy/girl live online races. These live races are scheduled over weekends, in particular, Saturdays.
- Online races will be broadcast live with professional commentary via live streams on the internet.
- The final score will be tallied from the **best 3 rounds** out of the total entered. In other words, your child does not have to attend all 5 races.
- To keep the competition fair for everyone, competitors have to follow the competition rules. These rules are specified in the Rulebook. The Rulebook contains extensive information about the competition, the organisation, the requirements, rules and regulations.
- The Rulebook also covers information regarding privacy, the use of data and images, and the prize.

- For communication between the organization and your child and for your child to communicate with other competitors, the chat platform Discord is used. Discord is also used for the mandatory drivers briefings. You are welcome to join Discord as well: <https://discord.gg/hxeNEKgMTS>.
- Based on the results of the points ranking after 5 rounds, the top 16 boys and 16 girl drivers will be invited to the Grand Final at the University of Bolton's "National Centre for Motorsport Engineering" auditorium. Parental consent and proof of identity are required.
- The invitation to the final includes one accompanying adult which is a mandatory requirement to ensure your child's well being.
- The final will be held on the 14th and 15th of May 2022 and consists of online knock-out races in professional racing simulators.
- Accommodation for the boy and girl competition finalists +1 adult (1 room on the 14th of May 2022) will be arranged and is included.
- Prior to the finals, the finalists will undergo health and safety assessments by Motorsport UK. More information on this subject can be found on the website www.racingstar.com/join and in the Rulebook.
- The boy and girl winner will be awarded 6-month professional driver training from the UK's sports governing body, Motorsport UK, during the second half of 2022 with a view to them qualifying to be issued an FIA F4 Competition License. After qualifying to receive their FIA Competition License, the boy and girl 2022 ROKiT Racing Star UK F4 Esports competition winners will be entered in the 2023 British F4 Championship driving for the ROKiT F4 Racing Team.
- The overall top 10 boy and girl finalists will win prizes. For more information, please see <https://www.racingstar.com/prizes>.
